

MARIA Wavelength-based Optical Network Services RFP
Additional Questions and Answers

This document will be updated as additional questions are asked and answered.

1. *June 25, 2020 – Please describe how the eVA fees discussed in Attachment I, Sections J and K are assessed and the implications for capital vs. recurring charges?*

The only official source for information about eVA is from eVA itself via its publications and other contact mechanisms. The main eVA web site is <https://eva.virginia.gov> with some more specific information located at <https://eva.virginia.gov/eva-billing.html>. **MARIA makes no statement as to how eVA works or the eVA fees that are assessed** and recommends that firms contact eVA directly with any questions. Remember that actual purchase orders under any contract resulting from this MARIA RFP will be from a member school, so questions to eVA might be asked in the context of “we want to sell X to ODU or UVA, ...”.
