

MARIA RFP Pricing Table Notes Update

June 5, 2020 – 3:00 pm

The Special Notes Column of Attachment 5 Worksheet 1, Pricing Sheet in the RFP documents published on May 27, 2020 contains errors. These errors exist in both the directly downloadable PDF version of the table and in the Excel spreadsheet embedded into the Word version of the RFP.

An updated version of the Pricing Sheet will be published after the preproposal conference on June 10, 2020. Please use the information below to continue your work in the interim.

1. Special Note #3 should reference Items 61/62 and 63/64
2. Special Note #4 should reference Items 80/81 and 82/83
3. Special Note #6 should reference Items 97/98 and 99/100

The full text of Special Note #6 is included in the embedded Excel spreadsheet but is not present in the directly downloadable PDF version of the Pricing Sheet. The full corrected text for Special Note #6 is:

Configured to provide the specified capacity back to Circuits 97/98 and 99/100

If you are using the Excel version of the Worksheet, realize that the “Circuit” numbers in the Notes refer to the “Item #” values from Column A and not the Excel spreadsheet row number.
